

Erdman Afternoon EXPLORERS Program

Tuesdays or Wednesdays
Beginning September 26, 2017

This extended day enrichment program is for children in 4's classes who are ready to meet the challenges of a longer day. Children attending the EXPLORERS program enjoy additional time exploring hands-on literacy, math, science, creative arts, physical development and social experiences. Each day will focus on one special project as well as time for cooperative free play, quiet time, snack and plenty of outdoor time. We love to explore outside in all kinds of weather! EXPLORER activities will not be the same as classroom activities. The emphasis is on fun with friends in a small group taught by two Erdman teachers.
